

HEIDELBERG WEB SYSTEMS, INC.
DOVER , NH

Heidelberg Web Systems, Inc. of Dover, New Hampshire manufactures web offset printing presses and related equipment. It is certified to ISO 14001. Heidelberg demonstrated its dedication to reducing environmental impacts by reducing amounts of excess paint by 40% and energy/electricity use by 20%. By 2003, the facility plans to reduce VOC emissions by 44%, recycle 85% of used glass and plastic containers, reduce air emissions by 20%, and recycle 50% of used white office paper.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Heidelberg Web Systems has demonstrated its commitment to environmental performance by reducing excess waste paint and reducing its energy/electricity usage. Since 1997, the facility has:

- **Reduced generation of excess waste paint** by 40% through introducing single component water-based paint formulations and low volume paint guns.
- **Reduced energy/electrical use** by 20% through facility renovation.

Future Commitments

Heidelberg Web Systems, Inc. committed to continued environmental improvement through reducing VOC emissions, recycling glass and plastic containers, reducing air emissions from transportation, and recycling white office paper. By 2003, the facility will:

- **Reduce VOC emissions** approximately 44% by conducting a feasibility study to determine if modern powder coating technology can be used in painting operations.
-
- **Recycle 85% of glass and plastic containers** by segregating glass and plastic containers from general solid waste in cafeteria areas.
- **Reduce air emissions** by 20% through reducing the number of vehicle trips between Heidelberg's Dover and Durham facilities.
- **Recycle 50% white office paper** by initiating a program to separate it from general office waste.

COMMUNITY OUTREACH

AT A GLANCE

Industry Sector:	Printing Trades Machinery
Business:	Manufactures web offset printing presses
Facility Employees:	500-1,000
Accomplishments:	Reduced generation of excess waste paint Reduced energy use
2003 Commitments:	Reduce VOC emissions Increase recycling Reduce air emissions
Address:	121 Broadway Dover, NH 03820
Website:	www.heidelberg.com

Heidelberg Web Systems, Inc. fulfills its community outreach obligations by meeting with local representatives and regulatory authorities and producing an annual environmental report. The report is distributed through mailings and is available on the company's website.
